

Guidelines for Preparing PowerPoint Presentation for Project Review - 1

Ensure your project is communicated clearly and effectively

Slide Structure (15-20 Slides)

1. Title Slide (1 Slide)

- Project Title
- Team Members with Register Number
- Supervisor's Name and Designation
- Department and Institution
- Date of Presentation

2. Introduction (2-3 Slides)

- Briefly describe the project's objective and scope.
- State the problem you are trying to solve or the question you are seeking to answer.
- Highlight the significance and potential impact of your project.

3. Literature Review (1-2 Slides)

- Summary of existing research and studies related to your project
- Key findings from the literature
- Gaps in the current knowledge that your project aims to address

4. Methodology

Approach: (1-2 Slides)

- Explain the overall approach to the project (e.g., experimental, theoretical, design-based).
- Clearly outline the steps involved.
- Use visuals (flowcharts, diagrams) to illustrate the process.

Procedures: (2-3 Slides)

- Describe the specific procedures used for data collection, analysis, or experimentation.
- Mention the tools and techniques employed (e.g., software, equipment, surveys).
- Justify the choice of methods and their suitability for the project.

5. Technical Details & Concepts (3-5 Slides)

Core Concepts:

- Explain the key technical concepts relevant to your project.
- Support explanations with visuals (diagrams, equations, code snippets).

Technical Challenges:

- Discuss any technical challenges encountered and how you plan to address them.

Solutions & Innovations:

- Highlight any innovative aspects of your project or any novel solutions you propose.

6. Project Progress (2-3 Slides)

- Briefly summarize the progress made to date.
- Present preliminary results (if available) and discuss their significance.
- Briefly describe how each team member has contributed to the project.

7. Future Work (1 Slide)

- List the tasks and activities you plan to complete in the coming phases of your project
- Present a revised project timeline, outlining key milestones and deadlines.

8. Questions (1 Slide)

- Invite questions from the reviewers and audience
- Be prepared to answer questions and provide clarifications

Design Tips

1. Keep It Simple

- Use a clean, professional template
- Avoid clutter and excessive text on the slides
- Use bullet points to highlight key points

2. Use Visuals Wisely

- Include relevant images, graphs, and charts to support your points
- Ensure visuals are clear and high-quality
- Use diagrams and flowcharts to explain complex concepts

3. Consistent Formatting

- Use consistent fonts and colours throughout the presentation
- Ensure text is legible with a font size of at least 18 points
- Align text and visuals for a neat appearance

4. Practice Your Presentation

- Rehearse your presentation multiple times
- Time yourself to ensure you stay within the allotted time (typically 15-20 minutes)
- Practice speaking clearly and confidently
